INDEX TO VOLUME 94

Academy of Natural Sciences of Philadelphia and the American Philosophical Society, Historic botanical collections of (Pennell), 137
Alaska Highway, Postglacial forests along, in British Columbia (Hansen), 411
Aldridge, Alfred Owen, Franklin's letter on Indians and Germans, 391
Franklin and Jackson on the French War, 396
Franklin's deistical Indians, 398
American Philosophical Society, Joseph Priestley and (Conklin), 127
and the Academy of Natural Sciences of Philadelphia, Historic botanical collections of (Pennell), 137
Studies of historical documents in the library of, 185
and early Russian-American relations (Dvoichenko-Markov), 549
Archaeological research in the John Day region of north central Oregon (Cressman), 369
Archeology, Pennsylvania, History and present status of (Witthoft), 301
Arctic North America, Postglacial marine submergence of, with special reference to the Mackenzie Delta (Richards), 31
Astronomical activity, Pre-Copernican (Thorndike), 321
Augustus, Arch of, Annals of the Roman consulship on (Taylor), 511
Authoritarianism, national, Science and (Stakman), 114

Barbeau, Marius, Indian captivities, 522
Bell, Whitfield J., Jr., Some American students of "that shining oracle of physic," Dr. William Cullen of Edinburgh, 1755–1766, 275
Boring, Edwin G., Great men and scientific progress, 339
Bose or Fermi statistics, Interference phenomena for particles obeying (Moshinsky), 53
Botanical collections, Historic, of the American Philosophical Society and the Academy of Natural Sciences of Philadelphia (Pennell), 137
Bradbury, John, explorations in Missouri Territory (Rickett), 59
Buchan, Earl of, Walter Minto and (Eisenhart), 282
Burke, Wentworth Papers of (Hoffman), 352
Problems of letters (Copeland), 357
Butterfield, Lyman H., Psychological warfare in 1776: The Jefferson-Franklin plan to cause Hessian desertions, 233

Chaucer revising his verses (Malone), 317
Chinard, Gilbert, Abbé Lefebvre de la Roche's recollections of Benjamin Franklin, 214
Chivalry, Was the *futūwa* an oriental form? (Salinger), 481
Clark, John M., Varieties of economic law, and their limiting factors, 121
"Clock sent thither by the Royal Society," (Cope), 260
by John Shelton, Description of (Lloyd), 268
Cohen, I. Bernard, Benjamin Franklin and the transit of Mercury in 1753, 222
Conklin, Edwin G., Joseph Priestley and the American Philosophical Society: His experiments on spontaneous generation, 127
Contractility, Development of (Nicholas), 175
Cope, Thomas D., "A clock sent thither by the Royal Society," 260
Copeland, Thomas W., Problems of Burke's letters, 357
Corner, Betsy Copping, Day book of an education: William Shippen's student days in London (1759–1760) and his subsequent career, 132
Cressman, L. S., Archaeological research in the John Day region of north central Oregon, 369
Cullin, Dr. William, of Edinburgh, 1755–1766, Some American students of (Bell), 275
Cushman, C. Leslie, What schools can do to encourage thinking, 336

Demography, Japanese-American, Some social aspects of (Thomas), 459
Dixon, Jeremiah (1733–1779)—a biographical note (Robinson), 272
Dodge, B. O., J. R. Singleton, and Anita Rolnick, Studies on lethal E gene in *Neurospora tetrasperma*, including chromosome counts also in races of *N. sitophila*, 38
Dvoichenko-Markov, Eufrosina, The American Philosophical Society and early Russian-American relations, 549

Earthworm, *Eisenia foetida*, Electrical potentials of, considered in relation to growth (Moment), 24
Economic analysis and political synthesis (Nourse), 311
Economic law, Varieties of, and their limiting factors (Clark), 121
Eisenhart, Luther P., Walter Minto and the Earl of Buchan, 282
Eisenia foetida, Electrical potentials of an earthworm, considered in relation to growth (Moment), 24
Electric and magnetic forces on superconductors (Houston), 453

Fermi or Bose statistics, Interference phenomena for particles obeying (Moshinsky), 53
Fitzwilliam, Wentworth Papers of (Hoffman), 352
Foreign policy, American (Stassen), 450
Franklin, Benjamin, Abbé Lefebvre de la Roche's recollections of (Chinard), 214
and the transit of Mercury in 1753 (Cohen), 222
Plan to cause Hessian desertions (Butterfield), 233
and Italy since the eighteenth century (Pace), 242
Peale portraits of (Sellers), 251
letter on Indians and Germans (Aldridge), 391
and Jackson on the French War (Aldridge), 396
deistical Indians (Aldridge), 398
Freedom, Intellectual, Symposium on, 91
academic, Changing issues in the United States today (Gideonse), 91
of science (Goudsmit), 111
French War, Franklin and Jackson on (Aldridge), 396
Futūwa, an oriental form of chivalry? (Salinger), 481

Germans and Indians, Franklin's letter on (Aldridge), 391

Gideonse, Harry D., Changing issues in academic freedom in the United States today, 91
Goudsmit, S. A., Freedom of science, 111

Haac, Oscar A., Michelet's Purpose, 494
A spiritual journey; Michelet in Germany 1842, 502
Hansen, Henry P., Postglacial forests along the Alaska Highway in British Columbia, 411
Haskins, C. P., with S. H. Hutner, see Hutner
Hessian desertions, Jefferson-Franklin plan to cause (Butterfield), 233
Hoffman, Ross J. S., The Wentworth Papers of Burke, Rockingham, and Fitzwilliam, 352
Houston, William V., Electric and magnetic forces on superconductors, 453
Hutner, S. H., L. Provasoli, Albert Schatz, and C. P. Haskins, Some approaches to the study of the role of metals in the metabolism of microorganisms, 152

"Inanna's descent to the Nether World" continued (Kramer), 361
Indian captivities (Barbeau), 522
Indian languages, American, Magnetic recording (Voegelin), 295
Indians and Germans, Franklin's letter on (Aldridge), 391
Franklin's deistical (Aldridge), 398
Insulin, Chemical combination of, with muscle and its hormonal regulation (Stadie), 171
Intellectual freedom, Symposium on, 91
Interference phenomena for particles obeying Bose or Fermi statistics (Moshinsky), 53
Italy and Benjamin Franklin since the eighteenth century (Pace), 242

Jackson, Richard, and Franklin on the French War (Aldridge), 396
Japanese-American demography, Some social aspects of (Thomas), 459
Jefferson-Franklin plan to cause Hessian desertions (Butterfield), 233

Kramer, Samuel Noah, "Inanna's descent to the Nether World" continued, 361

Lancaster, H. Carrington, De Lesseps on Panama, Nicaragua, and Tehuantepec, 258
Languages, American Indian, Magnetic recording (Voegelin), 295
Laughlin, William S., Tests for presence of blood group substance in skeleton 11–218, 387
Law, economic, Varieties of, and their limiting factors (Clark), 121
Lefebvre de la Roche, Abbé, recollections of Benjamin Franklin (Chinard), 214
de Lesseps on Panama, Nicaragua, and Tehuantepec (Lancaster), 258
Lethal E gene in *Neurospora tetrasperma* (Dodge, Singleton, and Rolnick), 38
Library of the American Philosophical Society, Studies of historical documents in, 185
Lingelbach, William E., The story of "Philosophical Hall," 185
Lloyd, H. Alan, Description of a clock by John Shelton, 268

Mackenzie Delta, Postglacial marine submergence of Arctic North America with special reference to (Richards), 31
Magnetic and electric forces on superconductors (Houston), 453
Malone, Kemp, A poet at work: Chaucer revising his verses, 317
Man, Physical distinctions of (Schultz), 428
Medicine, Babel in (Pepper), 364
Mercury, transit of, in 1753, Benjamin Franklin and (Cohen), 222
Metabolism of microorganisms, Some approaches to the study of the role of metals in (Hutner, Provasoli, Schatz, and Haskins), 152
Metals, Role of, in the metabolism of microorganisms (Hutner, Provasoli, Schatz, and Haskins), 152
Meteor Society, American, Some results from data secured by (Olivier), 327
Michelet's purpose (Haac), 494
in Germany 1842 (Haac), 502
Microorganisms, Role of metals in the metabolism of (Hutner, Provasoli, Schatz, and Haskins), 152
Minto, Walter, and the Earl of Buchan (Eisenhart), 282
Missouri Territory, John Bradbury's explorations in (Rickett), 59
Moment, Gairdner B., On the electrical potentials of an earthworm, *Eisenia foetida*, considered in relation to growth, 24
Mosely, Philip E., Soviet research in the social field, 105
Moshinsky, Marcos, Interference phenomena for particles obeying Bose or Fermi statistics, 53
Muscle, Chemical combination of insulin with, and its hormonal regulation (Stadie), 171

Nebulae, extragalactic, Proposal to use, in measuring proper motions of stars (Wright), 1
Distribution of, in three selected areas (Shane and Wirtanen), 13
Neurospora tetrasperma, Studies on lethal E gene in (Dodge, Singleton, and Rolnick), 38
Nicholas, John S., Development of contractility, 175
Nourse, Edwin G., Economic analysis and political synthesis (Penrose Lecture), 311

Olivier, Charles P., Some results from data secured by the American Meteor Society, 327
Optimism, Historical implications of, in expanding America (Wright), 18
Oregon, north central, Archaeological research in the John Day region (Cressman), 369

Pace, Antonio, Benjamin Franklin and Italy since the eighteenth century, 242
Panama, Nicaragua, and Tehuantepec, de Lesseps on (Lancaster), 258
Parsons, Elsie Clews, Collection (Reichard), 308
Peale portraits of Benjamin Franklin (Sellers), 251
Pennell, Francis W., Historic botanical collections of the American Philosophical Society and the Academy of Natural Sciences of Philadelphia, 137
Pennsylvania archeology, History and present status of (Witthoft), 301
Pepper, O. H. Perry, Babel in medicine, 364
"Philosophical Hall," The story of (Lingelbach), 185
Political synthesis, Economic analysis and (Nourse), 311

Postglacial forests along the Alaska Highway in British Columbia (Hansen), 411
Postglacial marine submergence of Arctic North America with special reference to the Mackenzie Delta (Richards), 31
Precessional constant, Proposal to use the extragalactic nebulae in measuring the proper motions of stars, and in evaluating the (Wright), 1
Priestley, Joseph, and the American Philosophical Society: His experiments on spontaneous generation (Conklin), 127
Provasoli, L., with S. H. Hutner, see Hutner

Recording, Magnetic, of American Indian languages (Voegelin), 295
Reichard, Gladys A., The Elsie Clews Parsons Collection, 308
Richards, Horace G., Postglacial marine submergence of Arctic North America with special reference to the Mackenzie Delta, 31
Rickett, H. W., John Bradbury's explorations in Missouri Territory, 59
Robinson, H. W., Jeremiah Dixon (1733–1779)—a biographical note, 272
Rockingham, Wentworth Papers of (Hoffman), 352
Rolnick, Anita, with B. O. Dodge, see Dodge
Roman consulship, Annals of, on the Arch of Augustus (Taylor), 511
Royal Society, Clock sent thither by (Cope), 260
Russian-American relations, early, The American Philosophical Society and (Dvoichenko-Markov), 549

Salinger, Gerard, Was the *futūwa* an oriental form of chivalry? 481
Schatz, Albert, with S. H. Hutner, see Hutner
Schools, What they can do to encourage thinking (Cushman), 336
Schultz, Adolph H., The physical distinctions of man, 428
Science, Freedom of (Goudsmit), 111
and national authoritarianism (Stakman), 114
The limits of (Wigner), 422
Scientific progress, Great men and (Boring), 339
Sellers, Charles Coleman, The Peale portraits of Benjamin Franklin, 251
Shane, C. D., and C. A. Wirtanen, Distribution of extragalactic nebulae in three selected areas, 13
Shelton, John, Description of a clock by (Lloyd), 268
Shippen, William, student days in London (1759–1760) and his subsequent career (Corner), 132
Singleton, J. R., with B. O. Dodge, see Dodge
Soviet research in the social field (Mosely), 105
Spontaneous generation, Joseph Priestley's experiments on (Conklin), 127
Stadie, William C., The chemical combination of insulin with muscle and its hormonal regulation, 171
Stakman, Elvin C., Science and national authoritarianism, 114
Stars, Proposal to use the extragalactic nebulae in measuring the proper motions of (Wright), 1
Stassen, Harold E., American foreign policy, 450
Stewart, T. D., Report on skeleton from the Butte Creek Cave, John Day River region, Oregon, 385
Superconductors, Electric and magnetic forces on (Houston), 453
Symposium on Intellectual freedom, 91

Taylor, Lily Ross, Annals of the Roman consulship on the Arch of Augustus, 511
Thomas, Dorothy Swaine, Some social aspects of Japanese-American demography, 459
Thorndike, Lynn, Pre-Copernican astronomical activity, 321
Thurstone, L. L., Some primary abilities in visual thinking, 517

Visual thinking, Some primary abilities in (Thurstone), 517
Voegelin, C. F., Magnetic recording of American Indian languages and the relationship of this to other kinds of memory, 295

Wentworth Papers of Burke, Rockingham, and Fitzwilliam (Hoffman), 352
Wigner, Eugene P., The limits of science, 422
Wirtanen, C. A., with C. D. Shane, see Shane
Witthoft, John, The history and present status of Pennsylvania archeology, 301
Wright, Louis B., Historical implications of optimism in expanding America, 18
Wright, William Hammond, On a proposal to use the extragalactic nebulae in measuring the proper motions of stars, and in evaluating the precessional constant, 1
